

FOR SALE

As part of our long overdue garage clear out we are offering the following items. If interested, please contact **Mike Davies - 077197 98647**

A set of 4 wire wheels (48 spokes) which came off our MGA 1500. They could be cleaned up and with fresh tyres would be OK for road use as none of the spokes are damaged. Alternatively they could be used on a rolling project.

We also have a 2 kW petrol driven generator - bought, used once and put at the back of the garage!
